

令和7年度 博士人材のための企業説明会

# Zoom Operation Manual

# 1 . Preparation Before Event Day

Guidance to move between breakout rooms. If some applications don't have the latest version, you may have some troubles when moving. Please make sure to check the version in advance before participating. (See p.2)

## (1) Zoom Recommended System requirement

### 【 Operating system (OS) 】

|                                                                                                                           |                                 |
|---------------------------------------------------------------------------------------------------------------------------|---------------------------------|
| •From macOS X and macOS 10.13                                                                                             | From Red Hat Enterprise Linux 8 |
| Windows 10*<br>•note: Windows 10 Device must be mounted ,<br>Windows 10 Home, Pro or Enterprise. S mode is not supported. | Windows 11 *                    |
| From CentOS 8                                                                                                             | From Fedora 21                  |
| From Ubuntu 12.04                                                                                                         | From OpenSUSE 13.2              |
| From Mint 17.1                                                                                                            | ArchLinux (64bit only)          |
| From Oracle Linux 8                                                                                                       |                                 |

### 【 Tablet , Mobile device 】

|                                                                                                                                                                                                  |                    |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------|
| iOS and Android device                                                                                                                                                                           | From Surface PRO 2 |
| From Win 8.1 and from Surface PRO 2<br>* The tablet you have Windows 10, Windows 10 Home must be equipped Pro or Enterprise. S mode is not supported..<br>* Tablet only support desktop clients. |                    |

### 【 Browser 】

|           |                                                  |
|-----------|--------------------------------------------------|
| Windows : | Latest 2 versions of Edge, Firefox, and Chrome   |
| Mac :     | Latest 2 versions of Safari, Firefox, and Chrome |
| Linux :   | Latest 2 versions of Firefox and Chrome          |

# 1. Preparation Before Event Day

## (2) How to update Zoom (If you already have an account)

The version of Zoom is updated periodically.

If it is not up to date, problems may occur, so please update to the latest version before participating.

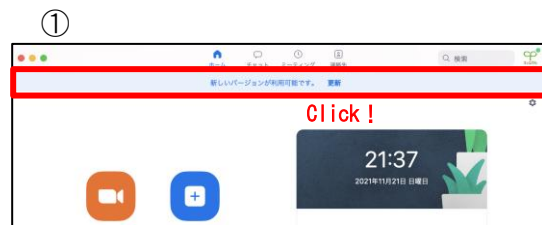

### ■PC (Windows、Mac)

① Sign in to Zoom, If the latest version is available, click "Update".

→If the message is not displayed, go to ③.

② When the screen like figure ② pops up, click "Update".

③ If you do not see any update, click on "User Icon".  
Click on "Check for Updates".

### ■iPhone・iPad

① Open App Store app and search for "Zoom".  
Open "Zoom Cloud Meetings".

② Click Update.

### ■Android

① Open Play Store and search for "Zoom". This will open "Zoom Cloud Meetings".

② Tap "Update" button.

※The above is a general guide on how to update.  
Other details can be found in Zoom Help Center.  
Zoom Help Center > Getting Started > Installation

## 2. How to participate on the day

### Check the URL of the day
